

## CONSENT FORM COVID 19 RISK OF TRANSMISSION

West London Upholstery Bureau operates with hygiene and sanitation protocols in place to protect its tutor and visitors. Despite these precautions, there is an inherent risk of human to human transmission of the Coronavirus (Covid 19).

Whilst West London Upholstery Bureau has taken every further precaution to limit your risk of exposure of Coronavirus, we cannot guarantee that there is no risk to you as a result of attending classes at the premises.

The virus appears to be spreading easily and is thought to spread mainly from person to person through people in close contact with one another (within about 6 feet) or through respiratory droplets produced when an infected person coughs or sneezes.

Whilst it is currently thought that people are most contagious when they are most symptomatic, it is possible some spread is possible before people show symptoms and/or if people are asymptomatic. The main symptoms of coronavirus (COVID-19) are a high temperature, a new, continuous cough and a loss or change to your sense of smell or taste. (NHS.uk-online)

If you are in the 'at risk' group such as pregnant, over 70, have a long term health condition or have a weakened immune system, or are usually offered the flu jab, you are currently strongly advised not to attend at this time.
